*Cadet (FKA Patchouli) has been an amazing addition to our family. She is one of the “essential oil pups.” We rescued/adopted her on Tuesday and she is already SOO smart and spoiled rotten!! My daughter wanted to keep the military theme going and her and my husband agreed on Cadet! She knows sit and she follows right beside us without a leash when we are at the barn. She is getting used to the BIG puppies (horses) at the barn as she has been with us everyday when we go and she had her very first lunch outing yesterday at Hare and Hound and did amazing and not to mention all the pets and loves from people she got. She is my daughters best friend and she loves her new big brother and sister. Can't wait to watch her grow and love her to pieces each day!!*
